GARDENS OF THE BLUE RIDGE

E. C. ROBBINS, Nurseryman

ASHFORD, McDowell County, NORTH CAROLINA

Our Main Packing-House at Ashford

Western Union Telegraph and Long Distance Connection. Wire Orders When in a Hurry, to Avoid Delay

NOTE TO CUSTOMERS

OUR LOCATION

Is in the heart of the Blue Ridge Mountains, "the most beautiful mountain region on the continent," in western North Carolina, nearly 4,000 feet above sea-level. My permanent headquarters is Ashford, McDowell County, North Carolina, on the scenic Clinchfield Railroad.

QUOTATIONS

This list cancels all previous offers. Do not order from old catalogues

All offers of stock are made subject to conditions beyond my control

PACKING AND GRADING

Will be done in the most careful way. Orders will be packed to insure arrival in good condition. Shipments will be delivered to the local freight, express, or post office at prices named in this Catalogue. Packing will be charged at cost on charge orders. All shipments delivered at cost and risk of customer. Certificate of inspection attached to all shipments. We specialize in carload lots.

REMITTANCE OR REFERENCE

Should accompany orders from unknown correspondents. Discount of 5 per cent on cash orders. All bills due and payable 30 days from date of invoice. Interest charged after 30 days.

SHIPPING INSTRUCTIONS

Should always be given fully, unless you prefer to leave to our best judgment. In this we assume no risk, our responsibility ceasing upon receipt of signed bill of lading by forwarders. All claims for damages in transit must be handled by consignee.

CLAIMS

All claims for errors must be reported upon receipt of goods and will be rectified promptly. Unless this is done we can accept no responsibility of any kind.

No GUARANTEE is made that stock will grow, whether planted by us or not. As we have no control over after-treatment or weather conditions, the purchaser must assume all risks after stock leaves our Nursery in good condition.

In no case shall we be held for damage exceeding original purchase price and only to this extent when proper proof is furnished that stock has been wrongly labeled.

All orders are accepted and filled on these terms, unless otherwise agreed

FALL SHIPPING SEASON begins in August and extends usually till about December 1, according to weather conditions.

SPRING SHIPMENTS are forwarded according to customers' wishes and subject to conditions beyond our control, March 1 to May 15. PLEASE ORDER EARLY.

- 5 *Yucca gloriosa*. Common. White bell-shaped flowers in July and August, on spikes that may be 6 feet or more in height.

Five to 10 plants of each variety (55 plants in all) for only \$7

Landscape Architects, Nurserymen, and Large Planters

Find our stock particularly suited to their requirements. Those who have known us longest are the largest users of our products. Prices reasonable to the extreme, quality considered. Your correspondence is invited and your orders will be given prompt attention. Send your list of requirements as quickly as possible to insure getting the stock in good time for planting.

LEAF-MOLD—NATURE'S PLANT-FOOD

This is the food nature provides for Azaleas, Rhododendrons, Kalmias, Leucothoe, Andromedas, Hemlocks, Pines, Ferns, Lilies, Trilliums, Native Orchids, and Perennials. Leaf-Mold gives the proper acid elements to the soil, insuring the best root-systems, foliage, and flowers. Valuable for old or new lawns. Leaf-Mold is collected from old Rhododendron beds, without artificial or chemical treatment.

SPECIAL NOTE: We have no connection whatever with any other Nursery. We employ no agents. Our entire business is transacted from our office at Ashford, North Carolina. Beware of peddlers and so-called nurserymen claiming to represent us and our nursery stock.

Azalea calendulacea. See page 21

Hardy Native Deciduous Trees and Shrubs

Cultural Directions for Azaleas, Broad-Leaved Evergreens, and Similar Plants

Azaleas, Kalmias, Leucothoë, Pieris, and Rhododendrons are acid-soil plants and will not succeed well in limestone soils. A deep, porous soil is essential. The ground should be excavated to a depth of about 2 feet, working in leaf-mold, humus, or well-rotted stable manure. This mixture must be worked in carefully and packed tight around the roots. Fill in the excavation with rotted sods, muck or peat soil, mixed with a small quantity of sand.

The plants should be set the same depth as in the nursery, which is shown by the earth-line near the base. After planting, mulch with several inches of leaves or light litter, allowing this mulch to remain around the plants, and renew it annually in the autumn. A thin covering of rich soil may be used to advantage in holding mulch in place and to assist in decomposition. The mulch also tends to keep the soil cool in summer and protects against freezing in winter. If these simple instructions are observed, your planting of Broad-leaved Evergreens will be entirely successful.

For use in beds of Rhododendrons, Azaleas, and other similar plants we recommend the following: Galax, Shortia, Ferns, Orchids, Lilies, Trilliums, Cimicifugas, Iris, Polygonatums, Sanguinarias, and most of our other perennials.

KINGSPORT IMPROVEMENT COMPANY, Kingsport, Tenn.

DEAR MR. ROBBINS:

April 26, 1939

I can't restrain myself from writing expressing my great appreciation of your integrity and the discriminating care with which you select shrubbery. This all leads me back to the many years we have done business together, perhaps now about twenty. I have never had one unhappy thought about you or anything but thoughts of respect and appreciation. Last year the Rhododendron and Hemlock you delivered to me at Montreat, N. C., where we have a summer home, and which were spread through the park around our house, all pleased us so much. We did not lose one of them.

Among other things that pleases me about you is the type of mountain men who work with you in the shrubbery, digging, packing and delivering them. They seem to have a gentleman's heart about shrubbery. They take such excellent care of it. Nothing that I could say would be too much in expressing my pleasure in dealing with you, and my respect for you. Yours sincerely,

J. FRED JOHNSON, President

MOUNTAIN LAUREL. No more beautiful shrub can be used in woodland borders and mass plantings where native color effects are desired. For sizes and prices please see page 19

Special Collections of Foundation Plant Material

These collections are valuable to home-owners who are not entirely familiar with Broad-leaved Evergreens. The plants are from my regular stock, and I feel sure they will please you when they arrive—and for many seasons thereafter.

Special Collection No. 9

Azalea arborescens. Sweet Azalea. Fragrant white flowers in spring and early summer.

Azalea calendulacea. Flame Azalea. A native species. Color varies from orange to canary.

Azalea canescens. Piedmont Azalea. Pink and rose.

Azalea nudiflora. Pinxter Bloom. Deep pink flowers.

Five plants of each, 18 to 24 in.
(20 plants in all), for only **\$19**

Special Collection No. 10

Rhododendron carolinianum. Carolina Rhododendron. The earliest flowering variety. Beautiful light to deep pink blossoms.

Rhododendron catawbiense. Catawba Rhododendron. Vigorous, hardy, free blooming. Color rosy purple.

Rhododendron maximum. Rosebay. Pinkish white flowers in July. The grandest of all Rhododendrons.

Five plants each, 18 to 24 in.
(15 plants in all), for only **\$14.75**

Special Collection No. 11

Kalmia latifolia. Mountain Laurel. A lovely native, with pink or rose flowers.

Leucothoe catesbaei. Drooping Leucothoe. Flowers creamy white, drooping and showy.

Pieris floribunda. Mountain Andromeda. White flowers in clusters in April and May.

Five plants of each, 18 to 24 in.
(15 plants in all), for only **\$14**
